SOFT SKILLS

- Cross-functional Collaboration
- Task Prioritization & Planning
- Effective Communication
- Analytical Problem Solving
- Focus & Resilience

TECH SKILLS

- Programming Languages: C#, JavaScript
- Backend: Node.js (Express), .NET Core, RESTful API
- Frontend: React, Tailwind CSS
- Mobile: React Native (familiar with Flutter concepts)
- Databases: MySQL, PostgreSQL
- Tools & Others: Git, GitHub, Basic OOP, MVC Architecture

PROFILE

Recent Information Technology graduate with a passion for building comprehensive software solutions. Strong foundation in API development and full-cycle application delivery. Highly adaptable and eager to leverage a polyglot mindset to master new technologies and drive project success in a professional environment.

EDUCATION

Electric Power University

Graduated: 2026

Engineer's Degree in Information Technology

GPA: 3.4/4.0

PROJECTS

Degree Verification Ecosystem

- Developed a comprehensive degree management ecosystem including web portal, mobile application, and admin dashboard.
- Designed and implemented RESTful APIs using Node.js and PostgreSQL.
- Integrated high-speed search using Meilisearch.
- Applied service-based architecture for scalable system development.

Technologies Used: Svelte, Express.js, PostgreSQL, Meilisearch, Tailwind CSS.

EPU Smart Lookup - Mobile Application

- Built a cross-platform mobile application allowing students to verify academic degrees and retrieve personal profiles.
- Consumed REST APIs and handled authentication & data display.
- Focused on performance optimization and clean UI design.

Technologies Used: React Native, Express.js, PostgreSQL and RESTful API.

Coffee Shop Management Ecosystem

- Developed a full-stack system including web portal and mobile app for coffee shop promotion and menu management.
- Implemented backend services for product, customer, and order management.
- Designed relational database schema and performed CRUD operations.

Technologies Used: React Native, Express.js, MySQL and RESTful API.
